Hope they will bring back the Famload double data promo since not all are student that uses heavy YouTube and MS365. Hope PLDT can offer more load options other than these video

I am a student, the Famload Study 999 really didn't help me. The apps sponsored by these Famload Study were not even used by teachers here in the Philippines. Microsoft Office is also a free app that doesn't need data and they allocated almost 90GB on it, knowing we cannot use it. Wasted 1000 worth of money for a 24GB usable data for Google Chrome.
